Loan Stars Commission Tiers for Calendar Year 2024			
Initial Loan Amount*	% Paid Up Front	% Paid Over Time	Total Commission %
\$5,000 – \$149,999	4%	4%	8%
\$150,000 – \$299,999	4.5%	4%	8.5%
\$300,000 – \$499,999	5%	4%	9%
\$500,000 – \$1,500,000	5%	5%	10%

*The initial loan amount (draw) determines the commission tier percentage paid, as well as the percentage paid on all subsequent draws. For a draw amount (or portion thereof) to be eligible, it must increase the outstanding loan balance above the initial loan (draw) amount.

Typical Funding Example:

You refer a new client that is approved for a \$250,000 revolving line of credit. The client takes an initial draw (loan amount) of \$200,000. Your upfront commission on that funding is 4.5% or \$9,000 and 4% over time or \$8,000, a total of 8.5% or \$17,000! Any additional draws that increase the outstanding balance above the initial \$200,000 draw will be paid the same 4.5% upfront and 4% over time.

Skyrocketing Performance Bonuses up to \$100,000!
